

September 6-9, 2016, Berlin

Track Program Committee

- Johan Debayle
Ecole, Nationale Supérieure des Mines de Saint-Etienne, France
- Helene Dörksen,
Institut für industrielle Informations-
technik (inIT), Germany
- Olaf Enge-Rosenblatt,
Fraunhofer-Institut für Integrierte
Schaltungen IIS, Germany
- David Fofi,
Université de Bourgogne, France
- Frank Hoffmann,
Technische Universität Dortmund,
Germany
- Michael Hübner,
Ruhr-Universität Bochum, Germany
- Volker Lohweg,
Institut für industrielle Informations-
technik (inIT), Germany
- Fabrice Mériaudeau,
Université de Bourgogne, France
- Domingo Mery,
Universidad Católica de Chile, Chile
- Ralf Mikut,
Karlsruhe Institute of Technology
(KIT), Germany
- Uwe Mönks,
Institut für industrielle Informations-
technik (inIT), Germany
- Oliver Nelles,
Universität Siegen, Germany
- Kurt Niel,
Upper Austria University of Applied
Sciences, Austria
- Oliver Niggemann,
Fraunhofer IOSB-INA, Germany
- Steffen Priesterjahn,
Wincor Nixdorf International GmbH,
Germany
- Günter Rudolph,
Technische Universität Dortmund,
Germany
- Ralf Salomon,
Universität Rostock, Germany
- Javier Silvestre-Blanes
Universitat Politècnica de València
- Horst Schulte,
Hochschule für Technik und Wirt-
schaft Berlin, Germany
- ... to be extended

Call for Papers

**Track 6. Computer Vision, Computational Intelligence, and
 Modern Heuristics in Automation**

Track Co-Chairs

Volker Lohweg, Hochschule Ostwestfalen-Lippe, Germany, volker.lohweg@hs-owl.de
 David Fofi, University of Burgundy, France, david.fofi@u-bourgogne.fr

Focus of the Track: The Track on Computer Vision, Computational Intelligence, and Modern Heuristics in Automation aims at bringing together researchers interested in computer vision, object detection and recognition, intelligence computational techniques and modern meta-heuristics developed for automation and industrial applications, as well as to present current research results and to share their experience.

Topics within the scope of the track

- Computer vision systems
- Machine vision technology for flexible factory automation
- Image Processing Applications in Automation for Industry 4.0
- Intelligent technical Systems and Machine Learning for Industry 4.0
- Computational intelligence based on Fuzzy, Neural, Swarm intelligence and evolutionary approaches
- Modern heuristics methods in factory automation based on predictive, adaptive control, recognition, navigation, motion control, competitive, self-organizing learning and clustering
- Modern Heuristics and Big Data/ Data Mining in Automation and Industrial Applications
- Hardware optimization based on computational intelligence techniques

Aim: The aim of the conference is to bring together researchers and practitioners from the industry and academia and provide them with a platform to report on recent advances and developments in the newly emerging areas of technology, as well as actual and potential applications to industrial and factory automation.

Solicited Papers: Research papers reporting on new developments in technological sciences. Industry and development papers reporting on actual developments of technology, products, systems and solutions. Tutorial and survey papers. Work-in-progress papers. In addition, ETFA 2016 solicits special session proposals to stimulate in-depth discussions in special areas relevant to the conference theme. Please consult the conference web page for more details.

Conference Format: The conference will comprise multi-track sessions for regular papers, to present significant and novel research results with a prospect for a tangible impact on the research area and potential implementations; work-in-progress (WIP) sessions; panel discussions on the state-of-the-art and emerging trends, involving leading experts from industry and academia; and public discussion sessions moderated by leading experts in the field of industrial automation systems.

Submission of Papers: The working language of the conference is English. Two types of submissions are solicited. Long Papers – limited to 8 double column pages in a font no smaller than 10-points. Work-in-Progress and Industry practice papers – limited to 4 double column pages in a font no smaller than 10-points. Manuscripts must be submitted electronically in PDF format, according to the instructions contained in the Conference web site.

Best Paper Award: Best paper awards in Factory Automation and Emerging Technologies will be presented at the conference banquet dinner.

Further Information: ETFA2016 Conference Secretariat: Tel.: +49 / 5261 94290-35; Fax.: +49 / 5261 94290-35; Email: etfa2016@iosb.fraunhofer.de

Paper Acceptance: Each accepted paper must be presented at the conference by one of the authors. The final manuscript must be accompanied by a registration form and a registration fee payment proof. All conference attendees, including authors and session chairpersons, must pay the conference registration fee, and their travel expenses.

No-show Policy: The ETFA2016 Organizing Committee reserves the right to exclude a paper from distribution after the conference at IEEE Xplore if the paper is not presented at the conference.

Author's Schedule:

Deadline for submission of regular and special sessions papers:	April 15, 2016
Notification of acceptance of regular and special sessions papers:	May 15, 2016
Deadline for submission of work-in-progress papers and Industry practice:	May 20, 2016
Notification of acceptance of work-in-progress papers and Industry practice:	June 20, 2016
Deadline for submission of final manuscripts – regular and special sessions:	July 1, 2016
Deadline for submission of final manuscripts – work-in-progress papers and Industry practice:	July 1, 2016
